CAREER OBJECTIVE

To be involved in work where I can utilize skill and creatively involved with a system that effectively contributes to the growth of the organization.

SUMMARY EXPERIENCE

- Experienced Back End Developer skilled in PHP REST API development, building efficient PHP modules, and utilizing software design patterns such as MVC.
- Proficient in the Laravel framework, with expertise in JavaScript, jQuery, and AJAX.
- Well-versed in advanced PHP concepts, MySQL, MongoDB, JSON, XML, and working in LAMP/WAMP environments. Additionally, I have an understanding of object-oriented programming principles and design patterns, enabling me to write clean and maintainable code.
- Familiarity with Amazon Web Services (AWS) offerings, including S3, RDS, Elastic Beanstalk, Route 53, Amazon CloudWatch, and EC2.
- Knowledge of DB & code security along with basic server operations like Curl, Crud, and cPanel and integrating third-party SDKs, Payment Gateways and APIs like Razorpay, Stripe, PayU & CatalystPay, and Email services like SMTP, Sendgrid & Mailchimp.
- Ability to work in agile methodologies & version control (GitHub, Gitlab, Bitbucket, etc.) & project management tools (Trello, Jira).
- Logical thinking, incident management, problem management, and problem-solving skills along with an ability to collaborate
- Analyze logs, database queries, and system performance issues
- Proficient in leveraging AI tools such as Copilot, Gemini, and ChatGPT to enhance productivity, streamline workflows, and support innovative problem-solving
- Prepared a variety of different written communications, reports, and documents.
